# NEXTY NEXTY RACK/NEXTY PACK

A variety of features for comfortable use.  
New pipette tip systems proposed  
by Watson.

## NEXTY RACK

### Autoclavable - Repeatedly

Designed for "durable" and "repeated autoclaving" due to polycarbonate used.

\*Repeated autoclaving may cause rack damaged.

### Stable Shape

Trapezoid shape allows tips to fit into the rack without holding the rack by hand.

### Non-Slip Rubber Base

Removable elastomer rubber base\* enhances stability.  
(\*Not autoclavable)

### Water drain holes

4 drain holes on the bottom allows quick drying after autoclaving.

### Hinged lid

The lid opens wide enough to access to the tips even with multi channel pipette.

### One Touch Operation

Easy opening and closing the lid with one finger. The lid automatically locks when closed.

### Color-selectable Lock Latch

Select from 3 color options\* for easy identification.  
(\*3 pcs are originally included.)

### Easy to Refill

Refill plates are available for easy and convenient replenishing tips.

\*In case of setting the refill plate or stack rack except 123NT-755C, take the existing support post off before replenishing tips.

## NEXTY RACK S-size

1298-NTS  
NEXTY Rack (S)

Note: Color-selectable Lock Latch(3 pcs) and Support Post(See the photo down in the right) are originally included.

Cat. No.	Item	Unit	Case
1298-NTS	NEXTY Rack (S)	1 piece	40 units

**Compatible refill plate and stack rack**

- 122-207C/CS ● 122-204C/CS
- 123NT-755C ● 122-703C/CS
- 122-503C/CS
- 122-505C/CS
- 127-10S ● 127-10XS ● 127-20S ● 127-100S ● 127-200S
- 1272-207CS ● 1271-204CS ● 126-20S ● 126-100S ● 1272-703CS
- 126-200S

Material: Polycarbonate (rack/support post)  
Polybutyleneterephthalate (lock latch)  
Elastomer (rubber base)

Body/Lock latch only

## NEXTY RACK M-size

1298-NTM  
NEXTY Rack (M)

Note: Color-selectable Lock Latch(3 pcs) are originally included.

Cat. No.	Item	Unit	Case
1298-NTM	NEXTY Rack (M)	1 piece	20 units

**Compatible refill plate and stack rack**

- 122-502C/CS ● 122-706C/CS ● 122-804C/CS ● 122-806C/CS
- 127-1000S
- 126-1000S

Material: Polycarbonate (rack)  
Polybutyleneterephthalate (lock latch)  
Elastomer (rubber base)

Body/Lock latch only

## NEXTY PACK

**Ecology & Economy**  
**Waste-reduction due to paper package**  
**Space-saving, Cost-saving**  
**Very easy to refill tips**

After setting into tip rack

123NT-755C  
NEXTY Pack 200 µL  
Refill plate for NEXTY Rack S size

Material: Polypropylene (pipette tip)  
Polycarbonate (plate)  
Paper (box)

705  
200 µL

Ultrathin formed tip point enables complete liquid dispense.

Thin wall designed plate reduces waste compared to conventional product.

Place the Support Post\* inside the NEXTY Rack(S size) before use.  
(\*Originally included)

Easy to refill tips.

Cat. No.	Item	Unit	Case
123NT-755C	200 µL, Standard Tip, Graduated, Natural, "NEXTY PACK" Refill Stack for NEXTY Rack(S)	96 tips × 5 plates × 10 stacks	5 units

Note: (\*) ECO PACK are autoclavable after setting into tip rack. Repeated autoclaving may cause rack damaged.

ECO PACK

207  
10 µL

## 10 µL, 50 mm, Long Tip

Real scale

\*: see below

Because of total 50 mm length of long tip, the pipette's nozzle does not touch the solution and/or the microtube with no concern of contamination even if the tip reaches the bottom of 1.5 mL microtube.

Ultrathin formed tip point enables complete liquid dispense.

Material: Polypropylene (pipette tip, plate)

Cat. No.	Item	Packaging	Unit	Case
110-207C	10 µL, Long Tip, Graduated, Natural	Bulk	1000 tips	20 bags
* 120-207C	10 µL, Long Tip, Graduated, Natural	System Rack(PC)	96 tips×10 racks	5 units
* 120-207CS	10 µL, Long Tip, Graduated, Natural	Sterilized System Rack(PC)	96 tips×10 racks	5 units
* 1298-207RA	Empty Rack for # 207 (10 µL Long) and 1272-207CS / 127-10XS	—	10 racks	5 units
120P-207C	10 µL, Long Tip, Graduated, Natural	System Rack(PP)	96 tips×10 racks	5 units
120P-207CS	10 µL, Long Tip, Graduated, Natural	Sterilized System Rack(PP)	96 tips×10 racks	5 units
* 122-207C	10 µL, Long Tip, Graduated, Natural	Refill Plate	96 tips×10 plates	5 units
* 122-207CS	10 µL, Long Tip, Graduated, Natural	Sterilized Refill Plate	96 tips×10 plates	5 units

**Pipette tip compatibility**

- Nichiryo Nichipet EX 0.1-2 µL / 0.5-10 µL(Multi)
- A&D MPA-10 / MPA-20

Note:(\*)Refill plate type and ECO PACK are autoclavable after setting into tip rack. Repeated autoclaving may cause rack damaged.

Pipette Tips

**705**  
200 µL

## 200 µL, Standard Tip

Real scale

Ultrathin formed tip point enables complete liquid dispense.

\*: see below

Material: Polypropylene (pipette tip)

Cat. No.	Item	Packaging	Unit	Case
110-705C	200 µL, Standard Tip, Graduated, Natural	Bulk	1000 tips	10 bags

### Three tip-systems available in the 705 series

#### ECO PACK

Speedy. Sterilized and ready to use

Material: Polypropylene (pipette tip, plate)

123R-755CS  
200 µL, ECO PACK

1298-755RA  
Empty Rack  
for ECO PACK (200 µL)

Lift a plate

Place it into a rack

Refilling tips is completed

Cat. No.	Item	Packaging	Unit	Case
* 123R-755CS	200 µL, Standard Tip, Graduated, Natural, "ECO PACK" Refill Stack <b>Sterilized</b>	Stack Rack	96 tips × 5 plates × 10 stacks	5 units
* 1298-755RA	Empty Rack for ECO PACK (200 µL)	—	10 racks	8 bags

#### NEXTY PACK

Economical. In combination with a NEXTY Rack

Material: Polypropylene (pipette tip)  
Polycarbonate (plate)

123NT-755C  
NEXTY Pack 200 µL

1298-NTS  
NEXTY Rack (S)

Thin wall design reduces waste compared to conventional product.

Place the Support Post\* inside the NEXTY Rack(S) before use. (\*Originally included)

Easy to Refill - just place a refill plate on the NEXTY Rack.

Cat. No.	Item	Packaging	Unit	Case
* 123NT-755C	200 µL, Standard Tip, Graduated, Natural, "NEXTY PACK" Refill Stack for NEXTY Rack(S)	Stack Rack	96 tips × 5 plates × 10 stacks	5 units
* 1298-NTS	NEXTY Rack (S)	—	1 piece	40 pieces

#### PP Rack

Material: Polypropylene (pipette tip, plate)

1201-705C/CS  
200 µL, PP Rack

1298-705RA  
Empty Rack for # 705 (PP)

Cat. No.	Item	Packaging	Unit	Case
1201-705C	200 µL, Standard Tip, Graduated, Natural	Rack(PP)	96 tips × 10 racks	5 units
1201-705CS	200 µL, Standard Tip, Graduated, Natural <b>Sterilized</b>	Rack(PP)	96 tips × 10 racks	5 units
1298-705RA	Empty Rack for # 705 (200 µL) PP	—	10 racks	5 units

**Pipette tip compatibility**

- Watson NEXTY/NEXTY-S 2-20 µL / 10-100 µL(Multi) / 20-200 µL(Multi) / 20 µL • 100 µL • 200 µL(Fixed volume)
- Eppendorf Reference/ Research V 2-20 µL / 10-100 µL(Multi) / 50(20)-200 µL

## Features of Watson Tip System

### Tough & extremely durable

The body and lid, made of polycarbonate(PC), does not lose its shape over time use. It can also be autoclaved repetitively.

**Note:** Repeated autoclaving may cause rack damaged.

### Low cost and high chemical resistant

The body and lid, made of Polypropylene(PP) is lightweight, durable, and highly resistant to chemicals and heat. Because of its inexpensive cost compared with System Rack (PC), this System Rack(PP) can be disposed as one time use if used with non-sterilized long tip, or can be reused even after autoclaving if tips are manually refilled.

**Note:** The rack made of PP shrinks slightly after autoclaving, consequently refill plate cannot be used.

### Easy, Handy, and Eco-Friendly

One-touch replacement for the System Rack. The paper cover can be recycled.

**Note:** Use a PC (polycarbonate) rack when refilling tips.

Remove the old plate.

Place the new plate. Remove paper skirt.

Refilling tips is complete.

### Nuclease-free certificate

This mark shows RNase/DNase/Human-DNA free. Products with this mark are manufactured in the clean room under our high quality control, and inspected to meet our strict quality standards.

RNase/DNase-free certificates can be issued for each lot upon your request.

**Note: (\*)Refill plate type is autoclavable after setting into tip rack. Repeated autoclaving may cause rack damaged.**

- Biohit Proline 100-1000  $\mu$ L • Nichiryu Nichipet EX 100-1000  $\mu$ L

## PRECAUTIONS : When using the long tip or extra-long tip

The liquid is affected by pressure, dependent on the size/length of the tip. Therefore when you use a certain pipette in combination with a long tip, it is necessary to adjust the scale on the pipette tip's height (=height of sample) in accordance to the level to which liquid has been drawn in. If an 801\* tip (250  $\mu$ L) or an 805\*\* tip (1200  $\mu$ L) is used, it is necessary to make adjustments.

**Note:** The shape/size of the following tips is identical.

\*Tip # 801: Tip # 200XS series

\*\*Tip # 805: Tip # 1200S series

Example: Adjustment of height  
The level when dispensing with 1000  $\mu$ L on the pipette scale.

Note:(\*)Refill plate type is autoclavable after setting into tip rack. Repeated autoclaving may cause rack damaged.

## Rack Joint

Material: Polycarbonate

- With Rack Joint as a hinge, the lid can be connected to the case of system rack.
- The adhesive tape on the Rack Joint's back is prepared for quick installation.
- Rack Joint can be used for both system rack made of polycarbonate and polypropylene.
- Autoclavable.

**\*Not suitable for PP racks; 1201-705C, 1201-705CS, 1298-705RA**
